PRODUCT DESCRIPTION

Clouds Paints Iris Plastic Emulsion is an acrylic co-polymer based quality economical emulsion paint with a smooth, flat and decorative finish with good hiding power. It contains anti fungal and anti bacterial additives. Its is recommended for masonry application and decoration of interior surfaces like concrete, plaster, gypsum board, asbestos, walls, ceilings.

SURFACE PREPARATION: Surfaces must first be thoroughly cleaned free from all dust and Grease objects for a better result.

NEW SURFACE: Clouds Paints Iris Plastic Emulsion is advisable to prime the surface before using 1 coat of Clouds Paints Undercoat and must be sanded properly for an Absolute Acceptable finish.

PREVIOUSLY PAINTED SURFACE: The surface must be sanded properly for an Absolute Acceptable finish before using the top coat of Clouds Paints Iris Plastic Emulsion.

APPLICATION: STIR WELL BEFORE USE: Clouds Paints Iris Plastic Emulsioncan be applied by brush, roller or spray equipment.

CLEAN EQUIPMENT WITH CLEAN WATER

DRYING TIME: Touch dry in 1 hour and can be recoated in 3-4 hours.

SPREADING CAPACITY: 12 square metres per litre on smooth, non porous surface. Spreading capacity will be substantially reduced on rough textured surfaces.
