PRODUCT DESCRIPTION

Cloud Enamel Paint is a high VOC content gloss enamel finish and washable oil based product, Suitable for interior and exterior use.

Gives a tough, durable high sheen finish on wood, metal and plaster providing good resistance to knocking and scuffing.

Can be applied over most previously painted surfaces without an undercoat.

Its a fast Drying Enamel manufactured to provide a strong paint film with good chemical resistance & a selection of high quality pigments further enhances the properties by providing improved weathering resistance & UV light fastness of the coating.
