PRODUCT DESCRIPTION

Cloud Paints Supermatt is a trade quality-emulsion paint used for both interior and exterior. Supermatt is a water-based undercoat that has an excellent coverage, finish and application properties. In addition, it also provides a smooth base for top coat application of all decorative products. Its high quality filling properties has made it ideal for use on all types of, interior, exterior and masonry surfaces. Cloud Paints Supermatt is a high quality, acrylic-based paint, fast drying with a long lasting bright matt finish.

SURFACE PREPARATION: Surfaces must first be thoroughly cleaned free from all dust and Grease objects for a better result.

NEW SURFACE: It is advisable to prime the surface before using the top coat of Cloud Paints Silk Vinyl Emulsion and must be sanded properly for an Absolute Acceptable finish.

PREVIOUSLY PAINTED SURFACE: The surface must be sanded properly for an Absolute Acceptable finish before using the top coat of Cloud Paints Silk Vinyl Emulsion.

EQUIPMENT CLEANER. Clean tools with water and rinse properly for the next use.

APPLICATION: STIR WELL BEFORE USE: Cloud Paints Supermatt Undercoat can be applied by brush, roller or spray equipment. It should not be thinned behold 25% of water.

DRYING TIME: An interval of 2-3 hrs are recommended for re-coating and it gives an absolute good results.

SPREADING CAPACITY: Coverage is 10-12m^2.
